

KNIME Pros Learnathon

Prerequisites of the Workshop

Where do I find the latest version of KNIME Analytics Platform?

Download the latest free, open source version of knime here: [knime.com/download](https://www.knime.com/download)

Are there any KNIME Extensions I am supposed to additionally install?

Yes there are, but they depend on the group you have chosen (see event page description).

Extensions / Groups	Group 1: Financial Analytics	Group 2: Life Sciences	Group 3: Automation
KNIME Plotly	Required	-	Required
KNIME Expressions	-	Required	-
KNIME Integrated Deployment	-	-	Required
KNIME Data Generation	-	-	Required

Where do I find the exercises and slides that will be covered during the workshop?

You can download all the workshop materials at the link provided on the event page.

If anything is missing please visit the Dropbox repository again a few days before the workshop.

I am just getting started with data science and/or KNIME, is this the right workshop for me?

This workshop is meant for advanced users of KNIME to build complex components. You are welcome to join but please be aware this is an advanced workshop.

I have several years of experience in data science, is this the right workshop for me?

Absolutely. This workshop is meant for experienced users of the KNIME Analytics Platform interested in building components similar to those on the [KNIME Verified Components page](#).

What other resources will help me get a refresh of KNIME?

Check out our [E-Learning Course](#), [KNIME Books](#), [Cheat Sheets](#), [KNIME Forum](#), and [KNIME Hub](#).

For some reason I cannot solve the exercises with you during the session, should I still attend?

Absolutely. The session covers live solving of the exercises and you can still raise questions.
