Recap:
What is KNIME Community Hub?

# KNIME Community Hub is a place to…

search and **find**

store and **share** using spaces

collaborate in teams

execute workflows and **run** data apps

8

What's new in this release?

What's new

- Automate workflows through scheduling

- Run workflows ad-hoc

- Run workflows as data apps

How to collaborate privately with teams

Private collaboration

- KNIME Community Hub as a common platform for data projects

- Dedicated spaces and manage who gets to access what

- Keep track of changes and revert back anytime with versioning workflows

Open for Innovation
KNIME

Running workflows on KNIME Community Hub
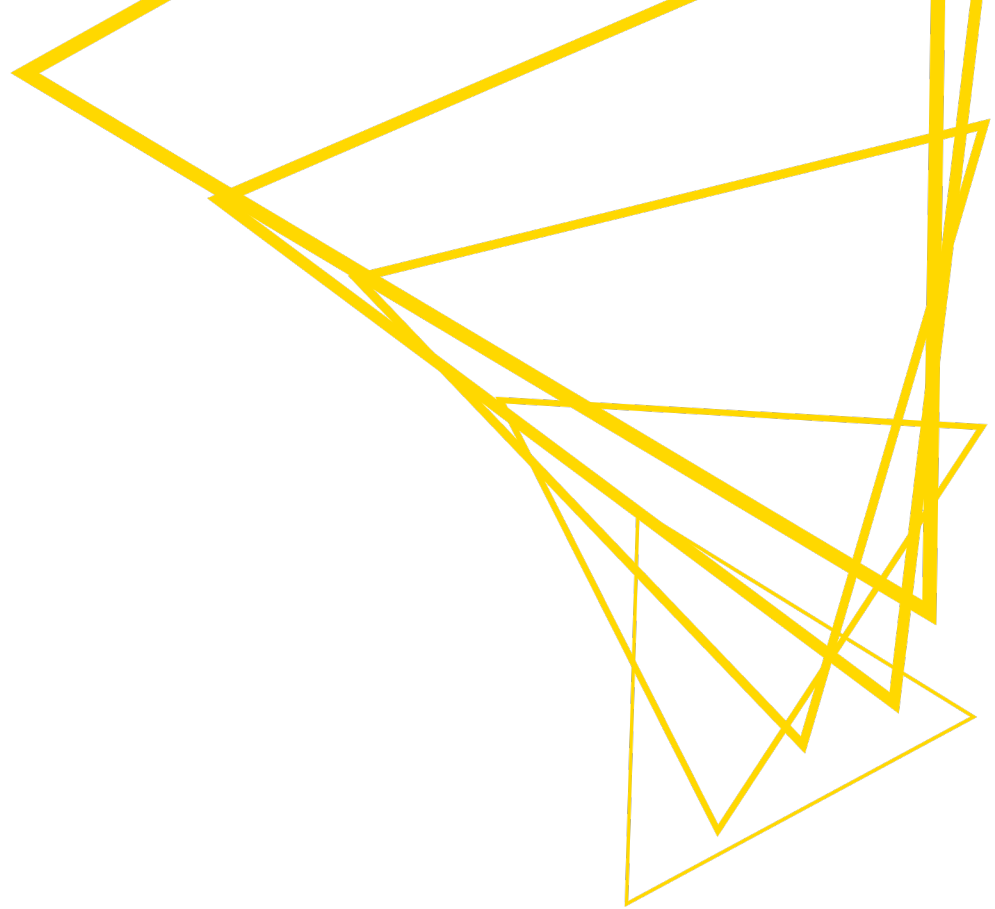

Executing workflows and running data apps

- Run workflows of any level of complexity on the cloud

- Schedule workflows to re-run automatically every week, hour, or minute

- Run workflows on demand with the choice to see results as interactive data apps

Top three use cases (so far)
